

Smarter
budgeting
with online
collaboration

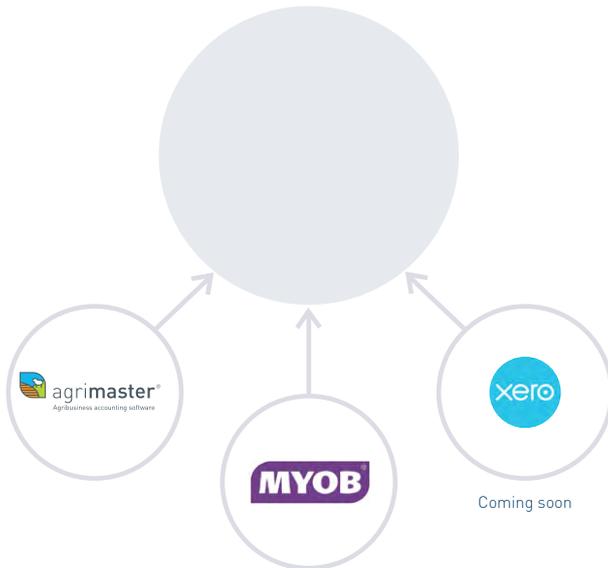

Reep gives you a helicopter view of financial data and the ability to run 'what if?' scenarios.

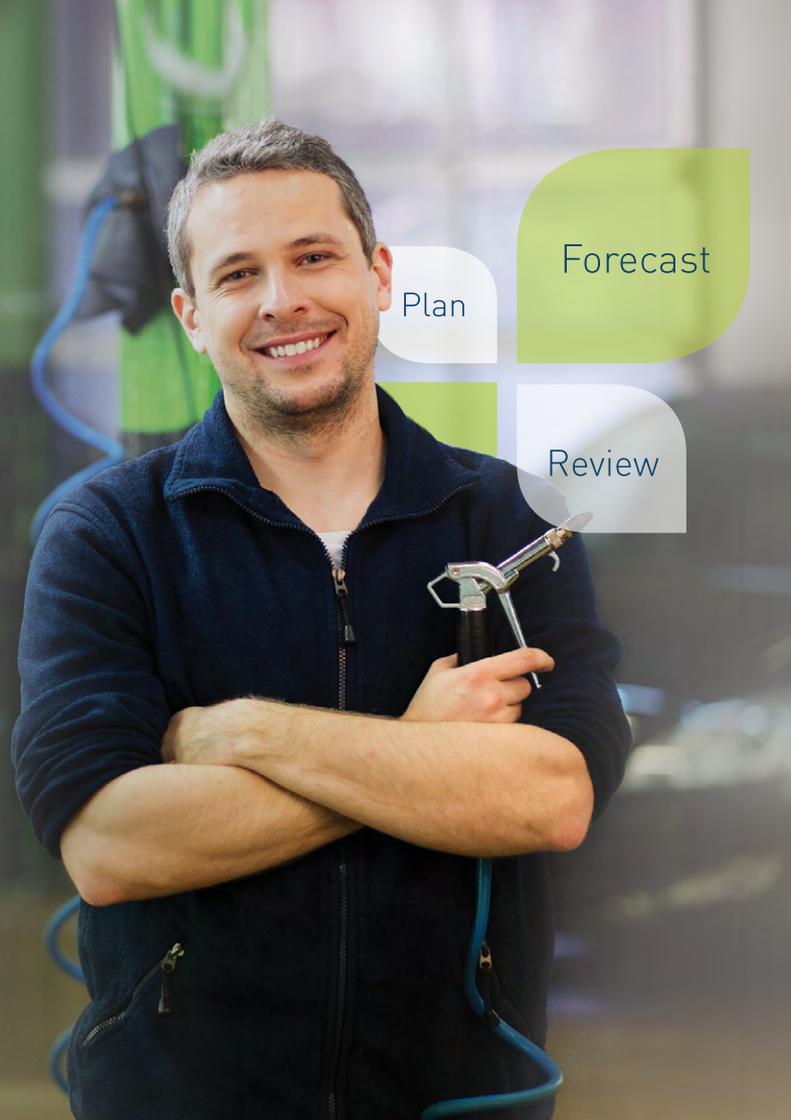

Get a live forecast of cash flow and a solid risk management tool to help plan for any business event from anywhere, at any time.

Reep integrates with MYOB, Agrimaster and Xero (coming soon)

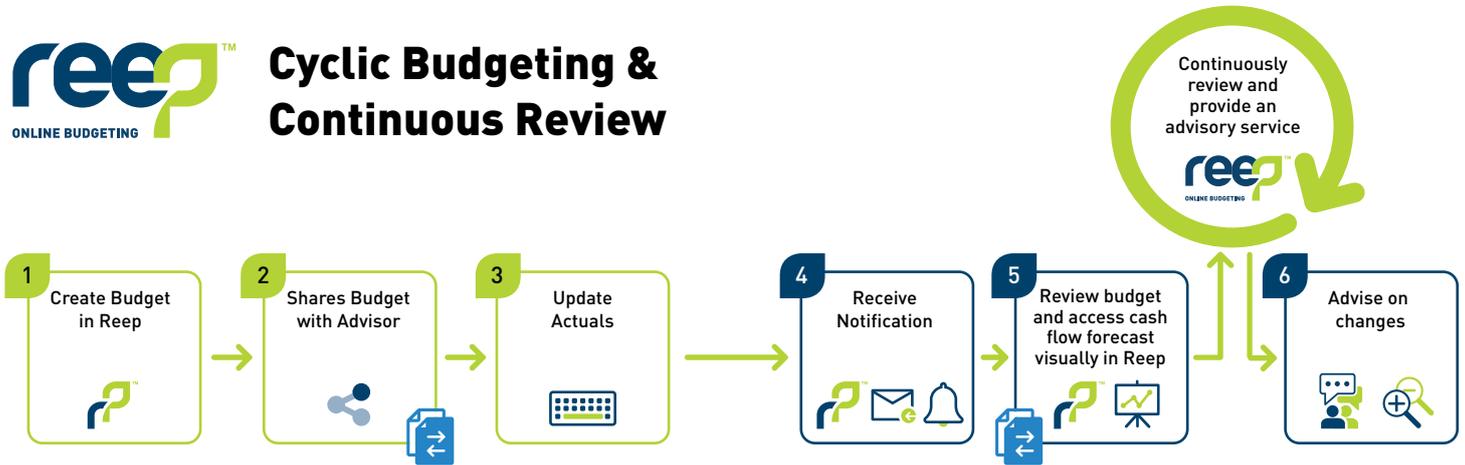

Import data directly into Reep to get a clear picture of cash flow, create a budget and forecast for the future.

A single place
for all client
budgets, online,
real-time and
always available.

Benefits for the Client

- Simple to use – import actuals (Cash Book data) directly into Reep
- Easy budget sharing
- Visual, online Budget with Budget to Actual comparison
- Create multiple budgets with ease and 'What if' scenarios
- Easy collaboration with Advisor
- On-line, easy to use and available anywhere on any device
- Continuous review and collaboration with Advisor or another Reep user

Benefits for the Advisor

- Reduce costs with live on-line collaboration (time, travel and data sharing)
- A single place for all client budgets, online, real-time and always available
- Single view of cash flow position for each client as it changes
- Assist clients with business performance, cash flow management, evaluation and planning
- Increase client review cycle with reduced costs
- Diversify the services offered – compare budget to actuals, review planned activity against actuals, track changes

Product features

Getting started with Reep is easy. In no time, you'll be managing the downside risk of your clients business and dreaming up new ways to grow.

View Live Budget to Actuals
